POSTER SIZE

The size for your poster should be 0.8m wide x 1.2m high. The poster board will be used VERTICALLY and NOT horizontally. You are only required to be at your poster board during the session time listed and not necessary the entire poster viewing time.

POSTER SUPPLIES

Be sure to prepare your own tape or velcro (both sides) to adhere your poster to the board. Push pins and thumbtacks will NOT work on these boards. Tape and Velcro will also be prepared on site to presenters but with limited amounts. To prevent the delaying of your posting (a large number of posters is presented during the conference). **We strongly suggest you to prepare your own tape or velcro.**
